IDIOSYNCRACY

- *Self-motivated ed& endorsedwith leadership quality.*
- *Enthusiastic, ambitious, & adaptable.*
  Enjoys working in teamenvironment.

MY STRENGTH

* Ability to work in groups and bring out the best in others.
- ❖ Hardworking & Punctual
- ❖ Self Confident

* Accept the daunting challenges.
* Hardworking and sincere, open, Flexible, and Life-Long Learning approach, never quit till the end.

Carrier Objective

To work with an organization, which can provide me with constant learning, leading to intellectual growth, enhance my creative skills, and achieve a top cadre by setting benchmarks both at the organizational and personal front and making positive contributions to the organization. Summary:

Offers more than 10+ years of working experience in Hardware & Software troubleshooting. LAN Interfaces, Installation of Active Directory in Win 2016 Server. Planning & Maintaining Active Directory Structure. Installation of DNS, DHCP Server, installation Network Printer. Providing connectivity between Windows 11 Server with Win 2016 workstation and Win XP, vista workstations. Clipping of Network Cable. Outlooks configure troubleshooting. ISA & Exchange server,

ISO-9001:2015, 14001:2025, 45001:2018, 39001:2012, 31000:2028 & ISO ISMS 27001:2022(Cyber & data security awareness) Toll Plaza Equipment I AVC, TLC, Loop Hight Sensor, Traffic Signal, UFD, Scita lesser sensor & MSWIM & Also ATMS all equipment's installation and maintenance (ATCC, TTES, VIDES, PTZ, VTS, MRCS, VMS, ECB, VASD). MLFF (ANPR, Lidar, IR, Radar, OCR etc.) Toll plaza digitalization 3P apps SAP, Vendor portal, I smart, dispute manager & comply global.

Professional Qualification: -

M.Tech (Cyber Security) 2022. Affiliated to Rajiv Gandhi Technical University, Bhopal, Percentage Marks. **76.8%**

B.Tech (Computer Science and Engineering), 2018. Affiliated Rajiv Gandhi Technical University, Bhopal Percentage Marks. **63.8%.**

Technical Skills:-

Language: 'C' and C++, DBMS, Having knowledge of computer Hardware.

- SAP, I smart, Vendor connect, CG tools & compliance tools
- Networking and troubleshooting,
- Cloud computing training (AWS & Azure).
- CCNA: -Switching routing, DHCP server, DNS, OSPF, RIP, VLAN, etc.
- Data Security and awareness of cyber-attack and security
- Team management and projects handling.

Work Experience & Project Details: -

Company	Designation	From	To	Project Location
Devaditya Technocrats LLP	**Manager- O&M and Projects Handling**	04-Aug-2026	Till Now	**Multiple project O&M and SITC, client handling of NHIT**
Highway Infrastructure Limited	**IT Manager/ HOD (Projects/ HO Lead)**	Jan-2026	Aug-2026	**Multiple Location In India, NHAI TMS & Expressway Projects.**
Interise (Indinfravit) Investment Manager	**Sr. Equipment Engineer (Project Lead)**	Dec - 2022	Jan 2026	**Bhilwara Rajsamand Tollway Pvt.Ltd. (TMS , HTMS , ITS , SAP, AI ,Comply Global & SAP,Data Awareness.)**
Safeway concessions Pvt. Ltd.	**Engineer systems (Project Lead)**	Jan 2022	Dec - 2022	**Porbandar _ Jetpur tollways Pvt.Ltd. NH-27 (ITS, TMS & ATMS Project)**
Devaditya Technocrats LLP.	**Asst. Manager (Multiple project installation)**	June 2021	Jan 2022	**Installation at Multiple Location In India, NHAI TMS & ATMS Projects.**
Feedback Highways OMT. Pvt.Ltd.	**Sr. Engineer**	July. 2020	June 2021	**Multiple Location In India, NHAI TMS Projects.**
Qualix Information System LLP	**Site Maintenance & System Engineer**	Feb 2019	May 2020	**Multiple Location In India, NHAI TMS ATMS, Projects.**
Path India Pvt. Ltd.	**Network Officer**	June 2018	Feb. 2019	**Multiple Location In India, NHAI TMS Projects.**

Job Profile and Responsibilities.

- Installation and Maintenances to ATMS on all Devices, of ATMs, VIDES, PTZ, VTS, VMS, MRCS, TTES, ATCC, ECB & ANPR etc.
- Knowledge of MLFF technology like, IR, radar, Lidar, ANPR, audit cameras, OCR based & ANPR based barrier tolling system.
- Working Fiber, Aggregators SFP, manageable switches, and wireless network media.
- Toll booth surveillance system maintenance and integration with Local Area Network.
- For implementation & establishment of Networks in the NHAI Project. Working with different types of networks, Configure group policy of user, devices like Router, Switches, Modem, SQL server, etc. Customer support for VPN / Internet issues. Troubleshooting of LAN/WAN. Proficient at exploring and developing new networking projects. Skilled in configuring leased lines.
- Handling the network infrastructure LAN/WAN, migration & configuration of network client workstations.
- Resolving authority compliances on technical issues as per SLA & Handle vendors.
- Configuration & Installation of RFID & Handheld reader & IOT
- Knowledge of all types of AVC, WIM, SWB & Boom Barrier.
- Handle software database and clouds related problems API.
- Having knowledge of maintain faults and close in under SLA.
- Remote support Outlook configure and manage the office that related problem.
- Maintaining overall ETC equipment and Monitoring operations & also managing the dispute management system via 3party portal.
- Manage the Equipment inventory in digitalization 3 party app. (SAP, I smart, Vendor portal)
- Handle the ISO internal & external audit (ISO-9001:2015, 14001:2025, 45001:2018, 39001:2012, 31000:2028 & ISO ISMS 27001:2022(Cyber & data security awareness)
- Manage AI based application and troubleshooting and handling.
- Under go awareness programs of different TMS modules to enhance existing TMS efficiency and Share details/observations post completion.
- SAT, FAT & COS handling with are vendors and authorities.
- Procurement and budget handling with the SPV & project.
- Team management and project handling: leadership, Project management, Planning, Delegation, Negotiating, Problem solving, Coordinating, Conflict resolution, Strategic thinking, Execution, Decision making, Innovation etc.
- Managing the NHAI compliances as newly implement technologies like UPI and Dynamic

Project Details

Project Title: **"Machine Learning Based Analysis of Crop Yield and Disease Prediction"**

Project Description: The foundation of the Indian economy is agriculture. The majority of farmers in India are not receiving the anticipated crop output for a number of different reasons. India's population has long practiced agriculture, but the results have never been satisfactory because of a number of factors that have an impact on crop productivity.
In the past, farmer experience with a certain field and crop was taken into account when predicting production.
The report has a section for tomato disease prediction in addition to crop yield prediction. For picture categorization in this module, a pre-trained VGG19 deep learning model is used. Tomato plant photos may be taken by farmers and uploaded for study. The module then makes use of the model to correctly categories the photos as either healthy or having certain disorders. The Crop Yield Prediction and Tomato Disease Prediction modules provide farmers with useful tools to improve their farming methods.

Personal Details

- Father's Name: Mr. Jagdish Suryawanshi
- Mother's Name: Mrs. Shivrati Suryawanshi
- Date of Birth: 27th November 1994
- Nationality: Indian.
- Sex: Male
- Language is known: English & Hindi.
- Permanent Address: 66 Anand bagh colony, civil line, Dewas, MP, Pin -455001

Declaration
